### About File Manager Add-on

Manage a complete file library directly in your **Advanced HTML Editor 3**? It's now possible with the **File Manager Add-on**, which allows you and your users to upload, delete, rename, download files and folders with a few mouse clicks.

**Drag** one or many files from your personal folders and **drop** to upload them automatically into the manager (Firefox & Chrome) and if you choose to show **thumbnails for the images**, the File Manager will generate a small thumbnail preview server side on the fly.

The **File Manager Add-on** is **fully secured** and the file views load **mighty fast** due to extensive usage of Ajax technology and CSS Sprites, and the amazing integration with the **Advanced HTML Editor 3**, which even matches the skin and style.

### **Features in Detail**

 Great support for images, web/dynamic pages, documents, music, movies, compressed, scripts & CSS files - You can upload any file to your File Manager in <u>Advanced HTML Editor 3</u>

• Allow only specific file types to be shown and managed - You can choose whether to show or hide files from your users in the File Manager.

Allowed Files		
🗹 Images	🗹 Flash	Documents
🗹 Music	Movies	Compressed
🗹 Web Pages	🗹 Scripts & CSS	🗹 Dynamic Pages
Extensions: ASP,ASPX,PHP,CF,	GIF, JPG, JPEG, BMP, PNG, MP	3,WMA,WAV,SND,AU

 Custom Files - You can make your File Manager support any custom file type, by entering it comma separated.

Allowed Files		
Images	Flash	Documents
Music	Movies	Compressed
🔲 Web Pages	Scripts & CSS	Dynamic Pages
Extensions: ABC, DEF, GHI, JKL,	MNO, PQR, STU, VWX, YX	

• Ajax based file manager - All file manager actions like uploading, adding new folder, editing and delete are all done asynchronous trough Ajax, so your manager is super fast and very responsible.

• Great Advanced HTML Editor 3 Integration - The File Manager Add-on is fully integrated into the <u>Advanced HTML Editor 3</u>, with the same beautiful style.

File Manager Options
Image Gallery Options
Picasa Gallery Options
YouTubizer Options

• Fully integrated in the editor style and skin - The skin of the File Manager Add-on always matches the selected editor skin.

• Full integrated Ajax Multi Upload with Drag & Drop (Firefox and Chrome) - Drag one or many files from your personal folders and drop to upload them automatically into the manager.

• Automatic On the Fly Thumbnail Generation - When you choose to show thumbnails for the images, the File Manager will automatically, on the fly generate a small thumbnail preview server side. So you don't have to download the full image. This makes the File Manager thumbnail view very fast!

•

• List View - In the list view you have an ordered array of your files.

o Icon View - You can preview your files types with the suitable icon.

• **Thumbnail View** - In the thumbnail view you have a large icon for any files type and the image thumbnails are automatically generated on the fly.

- Secure File Manager The File Manager Add-on has been designed to keep your files save with the choice to make visible only certain folders or files types.
- Support for all latest browsers All modern browsers are supported (IE8+ FF 3.6+, Safari 5+, Chrome 10+, Opera 10).

• Fully jQuery powered - Works with the latest jQuery 1.4.4

#### Before you begin

Make sure to setup your site in Dreamweaver first before creating a page. If you don't know how to do that please <u>read this</u>.

### Installing the extension

Read the tutorial at <a href="http://www.dmxzone.com/go?4671">http://www.dmxzone.com/go?4671</a>

Login, download the product, and look up your serial at <a href="http://www.dmxzone.com/myZone/purchases">http://www.dmxzone.com/myZone/purchases</a>

Get the latest extension manager from Adobe at <a href="http://www.adobe.com/exchange/em\_download/">http://www.adobe.com/exchange/em\_download/</a>

Open the .mxp file (the extension manager should start-up) and install the extension.

If you experience any problems contact our Live Support!

### Tutorial: Setting Up the File Manager Add-on on your Page

In this tutorial we will show you how to use the File Manager Add-on for Advanced HTML Editor 3.

\*You can also check out the <u>video</u>.

File Manager Add-on 🛛 🛛 🔀
File Manager Add-on
