### About DMXzone Accordion

Section 1
 Section 2
 Joren journ dolor sk
anter consectivit
 to consectivit
 section 3

If you've wondered how you can split your web content into **accordion-like fields** within Dreamweaver, now we offer you the best tool that makes it possible. With the **DMXzone Accordion** you can have **accordion sections** instead of pages anywhere on your site. Arrange your texts, images, videos and even whole pages and style them to create an intuitive and **user-friendly navigation** that will fit perfectly any window or monitor size. Grab your users' attention with stunning animation effects that will be played when toggling the content of your sections and present your products or ideas more effectively!

Supplied with **24 stylish designs** that can be edited through the CSS and options for customizing the size and the header icons, the **DMXzone Accordion** is **live rendered in Dreamweaver** so that you can change anything right in place. The extension is fully controllable by behaviors and can be bind to other DMXzone extension.

## **Features in Detail**

• **24 CSS Designs included** - You can simply choose one of the 24 amazing styles available or edit them through the CSS to fit your website perfectly.

• **Display your content in a stylish accordion** - Divide your web content into different sections that can be easily switched and save space on your pages

• **Display any content** - You can add rich content into the sections, such as text, images, videos and even whole pages

• Fully customizable styles - Our tabs are all CSS based so you can easily make your own adjustments in the CSS from within Dreamweaver's CSS editor

 Full support for the DMXzone Behavior Connector - You can easily bind other DMXzone extensions like <u>DMXzone Lightbox</u>, <u>Animated Thumbnail Gallery</u>, <u>DMXzone Calendar 2</u> and <u>Advanced HTML Editor 3</u> to your sections

• Search Engine Friendly - As the DMXzone Accordion is pure HTML and CSS code it can be nicely indexed by all search engines and web spiders.

### Before you begin

Make sure to setup your site in Dreamweaver first before creating a page. If you don't know how to do that please <u>read this</u>.

## Installing the extension

Read the tutorial at <a href="http://www.dmxzone.com/go?4671">http://www.dmxzone.com/go?4671</a>

Login, download the product, and look up your serial at <a href="http://www.dmxzone.com/myZone/purchases">http://www.dmxzone.com/myZone/purchases</a>

Get the latest extension manager from Adobe at <a href="http://www.adobe.com/exchange/em\_download/">http://www.adobe.com/exchange/em\_download/</a>

Open the .mxp file (the extension manager should start-up) and install the extension.

If you experience any problems contact our Live Support!

## The Basics: Adding DMXzone Accordion on a Website

In this tutorial we will show you how to insert **DMXzone Accordion** on your page and the options that we included in it.

\*You can also check out the <u>video</u>.

•	Section 3
D	isable Accordion Open Section 3

## How to do it

1. We've already added **DMXzone Accordion** on our page and inserted 3 buttons on the page, which we'll use in order to control the Accordion.

# Advanced: Inserting Nivo Slider within DMXzone Accordion

In this tutorial we will show you how to insert <u>DMXzone Nivo Slider</u> within **DMXzone Accordion**. \*You can also check out the <u>video</u>.

Section 3

## How to do it

 We've already added the DMXzone Accordion on our page and we're going to insert the <u>Nivo Slider</u> into the second section. Delete the default content (1) from the section and click the Nivo Slider icon (2).
